

We travel. It is soooo nice to be able and fine a station and have it follow us wherever we go. I hear reports that the FCC wants more diversity on their channels. So here we are. Not hurting anyone in fact helping people. How can that be wrong. And trust me, when your traveling with a RV attached to you, you NEED to know the traffic conditions of the city you will be traveling through and with all the hurricanes etc wandering around..THE WATHER CHANNEL IS A MUST!Please just let us be.

Thank you!

Sharon
